WINNERS OF THE 2023 PEOPLE'S CHOICE AWARDS

ICF Builder Magazine is proud to announce the winners of the 3rd Annual 2023 People's Choice Awards. The People's Choice Awards are conducted alongside the annual ICF Builder awards, an event designed to honor the many fine projects built in recent years using ICFs. The People's Choice Awards allow the public to vote on their favorite out of the top three projects in each category. This allows even more people to view and learn about these award-winning construction projects.

The winners of the 2023 ICF Builder Awards and People's Choice Awards were announced at the World of Concrete trade show in Las Vegas, Nevada, on January 18. One vote was counted per email address. Readers of ICF Builder Magazine, the greater construction community, and the general public were invited to vote for their favorite projects. Voting was open for a span of two weeks.

"The People's Choice Awards is a great way for the ICF community and greater public to engage in the ICF Builder Awards in a new way," said Vanessa Salvia, editorial director of ICF Builder Magazine. "We were thrilled by the number of people who participated in the People's Choice Awards. We were also pleased that the public chose different projects for the most part than the judges did. This shows us that while we may have been looking at different things, there are a plethora of features that make all of these projects interesting and exciting."

When considering these stunning projects, the judges take into consideration the site conditions, complexity, creativity, and media exposure. Following are the winning projects in each category, followed by the brand of ICF blocks used in the project:

2023 People's Choice Awards winners

Small Residential: Sunshine Green Home — Amvic

Large Residential: Driftwood — Nudura

Unlimited Residential: Garnet Way — Amvic
